**TERNIENERGIA: signed energy saving contract with the City
of Piancastagnaio (SI)**

- **Countervalue of the transaction Euro 2.85 million**
- **Duration of the concession contract of public lighting 16 years**

Terni, August 9, 2016

TerniEnergia, smart energy company active in the fields of renewable energy, energy efficiency, waste and energy management, listed on the Star segment of the Italian Stock Exchange and part of Italeaf Group, within the activity of the “energy saving” business line, announces that it has signed an energy efficiency lighting contract with the TPF formula (third party financing) of project financing type, worth about Euro 2.85 million on behalf of the City of Piancastagnaio (SI). The intervention, of which TerniEnergia will also manage the "turnkey" EPC, provides to improve energy efficiency of the municipal public lighting and the subsequent management, ordinary and extraordinary maintenance with regulatory compliance for a period of 16 years. The TerniEnergia's project will provide for the replacement of 1515 traditional lighting points with 1395 new LED lighting units of the latest generation, provided with proprietary technology, with an expected savings of about 110,5 million kWh/year.

This press release is also available on the Company's website: www.ternienergia.com.

TerniEnergia, a company incorporated in September of 2005 and part of Italeaf Group, is the first Italian smart energy company and operates in renewable energy, energy efficiency, energy and waste management. TerniEnergia operates as system integrator, with a turn-key offer of industrial sized photovoltaic plants, on behalf of third parties and on its own, for the Power Generation business, also through joint venture companies with leading national players. TerniEnergia operates in the waste management sector, recovery of the material and energy, development and production of technologies. In particular, the Company is active in the recovery of tires out of use, in the treatment of biodegradable waste through the implementation of biodigesters, management of plant for the biological depuration; development and production of technological apparatus. Through TerniEnergia Gas & Power, the Group is active in the energy management, energy sales to energy intensive customers, software and services for energy management, administrative, financial and credit management. The Group is also active on the natural gas and liquefied natural gas (LNG) market, offering a range of services and activities in order to develop Client's business and achieve a competitive advantage providing the best market conditions and creating a high added value.
